

THE BIG 5 INNOVATION BY CADAC

THE BIG 5 INNOVATION BY CADAC

South Africa is known for its Big Five. With our South African roots and almost 70 years of 'braai experience', CADAC proudly introduces its own Big Five!

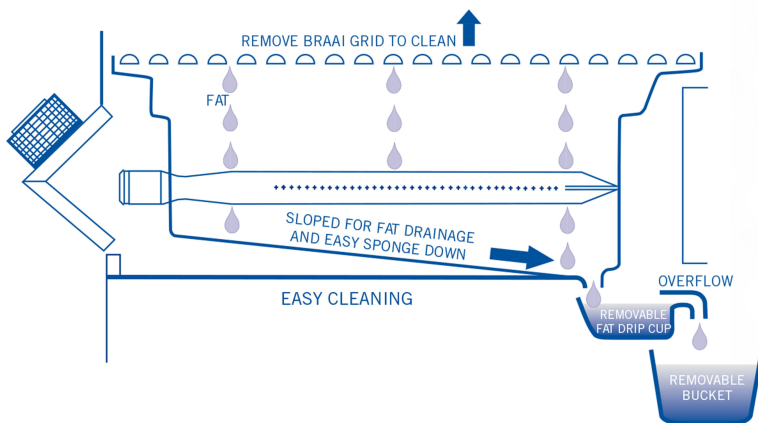

EASY CLEAN BBQ

THE CADAC EASY CLEAN SYSTEM

The burner box of all CADAC Easy Clean BBQs has a clean and smooth inside surface and is made from enamel-coated steel or coated aluminium. With CADAC Easy Clean your BBQ is effortless to wash (normal oven cleaner is perfectly safe to use on CADAC BBQs). When it comes to cleaning your BBQ, you can easily remove the fat pan and BBQ grid to wash the inside. When you clean the inside of the BBQ with warm water and detergent, the water drains off through a drip cup into a removable bucket.

PATIO RANGE

PATIO RANGE

Barbecues from our patio range are easily cleaned inside with the CADAC Easy Clean System and all BBQs have a removable fat pan.

CAMPING RANGE

CAMPING RANGE

Cleaning has never been this simple; just lift off the grill plate from the fat pan, and then use a sponge and warm water with some detergent to clean all your BBQ surfaces.
